Adopted: March 7, 1991.

POLICY:

The State Board must authorize the establishment of any campus of a Technical College.

The Technical College shall administer any campus within whose service area is located or designated by the State Board. A campus is defined as one that operates complete credit programs that are eligible to receive Title IV funds. Course/program offerings may include technical certificate/ diploma/degree courses or programs of occupational preparation, part-time programs of adult literacy, business/ industry services, and continuing education. An instructional site is a location where the college offers credit or noncredit instruction but does not meet the criteria of a campus. These sites do not require State Board approval.

All programs and courses offered at a campus shall be operated and adequately supervised by an on-site administrator or an administrator from another campus and subject to the same standards and requirements in such areas as curriculum, personnel, facilities, evaluation, budgeting, record keeping, and accreditation as would be required if operated at the central campus.

The Commissioner shall develop appropriate procedures for the implementation of this policy.
