Procedure: 5.1.10p. (IV.L)  
College Campuses

Revised: September 25, 2001; August 6, 2001; April 23, 2001; February 2, 1995; and March 7, 1991.

Last Reviewed: October 3, 2022; October 23, 2020; and October 30, 2017.

I. PURPOSE:
All requests for establishing a new campus must go to the State Board of the Technical College System of Georgia. The name submitted to the State Board will become the official name and be used for all agency purposes. The Technical College's local board shall first approve all requests for authorization.

II. RELATED AUTHORITY:
O.C.G.A. § 20-4-11 – Powers of Board.
O.C.G.A. § 20-4-14 – TCSG Established; Powers and Duties.
TCSG State Board Policy 5.1.10. – College Campuses.

III. APPLICABILITY:
All work units and Technical Colleges are associated with the Technical College System of Georgia.

IV. DEFINITIONS:
Requesting Establishment of a New Campus: All requests for establishing a new campus must go to the State Board of the Technical College System of Georgia. The name submitted to the State Board will become the official name and be used for all agency purposes. The Technical College's local board shall first approve all requests for authorization.

Suppose the establishment requires any budgetary action at the State level. In that case, the authorization request shall be made within the Performance Accountability System (PAS) utilized to prepare the annual Departmental budget request. If the establishment requires no budgetary action at the State level, an authorization request may be submitted to the State Board at any time during the year.

Requests through Performance Accountability System. A request for a new campus through the Performance Accountability System shall follow all standard procedures for a capital outlay request, along with meeting the following supplemental guidelines:

Justification of Need. The justification for the new campus shall clearly show why offering the programs and services is preferable to starting or expanding the programs at other campuses of the Technical College. The impact on existing programs of the same type at the requesting Technical College and nearby private or public Technical Colleges shall be discussed. Normally,
data, such as primary program assessment data, shall show that such existing programs and services are generally operating at capacity, or it shall be shown that a new campus will serve a population that is not currently being served. Via an employment demand survey and other data in the Performance Accountability System’s Community Needs Assessment module, it shall be shown that sufficient employment demand and potential student population exist to support the request.

**Facilities and Equipment.** The Performance Accountability System request must clearly show how adequate facilities and equipment will be provided. If required, additional funds for facilities, operations, or equipment shall be included in the Performance Accountability System request. Facility requirements will be considered a component of the overall institutional master plan and must become a part of the annual facility capital outlay budget planning process.

**Personnel.** Full-time and part-time personnel may be used at a new campus, just as at an existing campus, as called for by the program or course. Technical Colleges should transfer vacant positions to the new campus rather than request new positions when such unused positions are available. The request shall assure that all personnel meets the same Terms and Conditions of Employment requirements that would be in effect for similar programs, courses, or services at a central campus.

V. ATTACHMENTS:
Attachment 5.1.10p.a. New Campus Request
Performance Accountability System (see: [http://teched.tcsq.edu/aie.php](http://teched.tcsq.edu/aie.php))

VI. PROCEDURE:
Criteria for Approval of a New Campus.

1. A request must be submitted in a designated Performance Accountability System application form by an existing Technical College under the policy jurisdiction of the State Board, with the approval of the local governing board or board of directors.

2. The purpose of a new campus must include providing one or more complete certificates, diplomas, or degree programs that are Title IV eligible in response to the documented need in that location. (Otherwise, the location is an instructional site and does not need State Board approval.)

3. There must be a documented need for the training to be provided as well as evidence that there is a continuing need for the program(s) such that the need could not be met through established off-campus programs delivered by the main campus of an existing institution or in collaboration with other similar institutions.

4. There must be evidence that the available population base meets minimum requirements relative to the proposed offerings and that interest is such that student enrollments will be forthcoming.

5. 

6. 

7. Compared to the benefits provided, the initial and annual operating costs must be consistent with similar programs conducted on the main campus.

Note:

If any of the programs are eligible for Title IV financial aid, documentation from the accrediting agency must be submitted to the United States Department of Education along with the request for the location to offer Title IV aid.

Do you want to open this campus if TCSG state funds are not allocated? **

Signature of President ______________________________ Date: __________________________

* All locations offering at least 50% programs of study which are Title IV eligible are required to request State Board approval.

** Funds must still be requested in the usual Capital Outlay process.
