VI. PROCEDURE:

A. Driver Qualifications/Transportation

1. Any employee who operates a vehicle for field trip activities must be in compliance with the TCSG Driver Qualification Procedure. (NOTE: Colleges should provide a copy of this procedure to any employee who may be responsible for transporting students on field trips).
2. Colleges will ensure that any state owned vehicle offered for transportation is properly maintained and insured in accordance with Georgia Department of Administrative Services regulations.
3. If chartered transportation is utilized for field trips, colleges must ensure that the provider has the appropriate liability insurance and is utilizing properly licensed professional drivers.
4. A person renting a car should not allow others to drive the vehicle unless such use has been authorized by the rental agency.
5. Presidents may determine that personal vehicles will not be used by any employee or student for the transporting of students on field trips.
6. Any traffic and parking citations received during the course of a field trip are the responsibility of the driver, and must be immediately reported to the employee's supervisor.
7. College transportation for field trips must be provided and must depart from and return to the college campus.

- B. Students participating in field trips are required to sign the attached "Assumption of Risk, Agreement to Abide by Code of Conduct, Release of Liability, and Limited Medical Authorization"; if the student is under the age of 18, the form must be executed by a parent or legal guardian.
- C. Colleges must provide reasonable accommodations to students with disabilities to enable them to participate in field trips. Questions regarding accommodations may be addressed to the college's Section 504 Coordinator or the Office of Legal Services.
- D. For each field trip, the technical college must have a designated contact person on campus with information about the field trip in the event that emergency communication is necessary. Information should include the purpose, location, duration, mode and route of transportation, and emergency contact information for each participating student or sponsor. Field trip sponsors should have access to communicate with contact or emergency personnel at all times and are required to maintain a copy of the emergency contact information for each participant during the course of the trip.
- E. Whenever possible, field trips should be clearly identified in the course syllabus (including location, time, and mode of transportation). The syllabus should also identify the field trip as "required" if student participation is mandatory. The sponsor should discuss in appropriate detail with students the risks associated with the activity, relevant emergency preparedness information, as well as expectations for behavior during the activity (including transit to and from the location(s)).

- F. Sponsors will be subject to all policies and procedures, including the Ethics and Standards of Business Conduct during the course of a field trip.
- G. Students are subject to all policies and procedures, including the Student Code of Conduct.
