

**Georgia Partnership for Adult Education Research (GPAER)
Advisory Board Members**

The purpose of the advisory board is to provide practical context for the GPAER research plan and findings. The advisory board consists of adult education practitioners working in the field, including program administrators, instructors, transition coordinators, and Certified Literate Community Program directors. The advisory board also includes a member of the Technical College System of Georgia’s Data and Research team. The Georgia Office of Adult Education (GOAE) will consult with the board quarterly to receive feedback on the research plan, as well as preliminary and final research findings.

GOAE invited members to sit on the advisory board in August 2019. The inaugural advisory board meeting was held on September 18, 2019. The advisory board will continue to meet quarterly throughout the remaining grant period to discuss activity updates and provide feedback on research plans and findings.
