Why Is This Important?

• Office of Adult Education Key Measure: Workforce
  • FY23 Target: 60% of IET participants employed within 6 months and earning a living wage

• Evaluate the true value and impact of IET for students
  • Establish the validity of the program to pursue additional funding and support

• Inform the development of more rigorous IETs
IET Follow-Up Survey Overview

• Programs can download the Excel report (AEL7019) from Cognos to complete the survey

• Follow up with IET completers who earned credentials 6 months later to understand employment status
  • Dept. of Labor wage match data are too lagged (can be up to 1.5 years delayed)

• Data collected will inform effectiveness of IET on employment outcomes and in-field placement for local programs and the state
During an IET

• Make sure students know that a staff member will be following up with them at least 6 months after they complete the IET to ask some questions and see how they are doing.

• Take this opportunity to build relationships with students and communicate that we are invested in their future!
Conducting Follow-Up

- OAE recommends IET instructors, Career Services Specialists, or other relevant staff conduct follow-up given their relationship with the student.

- Follow-up can be conducted via phone or email.
  - OAE has created email and phone templates programs can use.
  - Survey questions will also be included in IET Follow-Up Survey Report for easy reference.

- Attempt to follow up with students at least two times (but this is just a minimum!). If you are not getting a response, additional attempts are encouraged.
