

AGRICULTURE

This program area will equip the student with the scientific knowledge and skills needed to enter a career in agriculture. The program will consist of three focus areas: poultry, horticulture, and livestock, and will also accommodate students who desire to pursue further studies, such as agricultural education. Modern agricultural enterprises require understanding multiple complex systems to be successful: plant and animal science, mechanics, finance, and leadership. Upon successful completion of the program students will understand how these systems are interconnected and how to manage them for efficiency.

FINANCIAL AID

The HOPE Career Grant provides Free Tuition for students that enroll in one of 18 High Demand career fields. It also helps Georgia's employers by creating a pipeline of skilled workers they can hire well into the future. In addition, many technical college students of all ages in Diploma and Technical Certificate programs have unique access to tuition assistance for workforce credentials. Georgia's HOPE Grant (a separate program from the HOPE Scholarship) is available to Georgia residents who are working towards a certificate or diploma at an eligible college in Georgia.

TCSG GRADUATE GUARANTEE

To demonstrate confidence in and commitment to quality technical education programs which are relevant, current, and responsive to the stated expectations of Georgia's businesses and industries TCSG guarantees every graduate from a technical certificate of credit, diploma or associate degree program. The TCSG warranty guarantees that the graduate has demonstrated the knowledge and skills and can perform each competency as identified in the industry-validated Standard or Program Guide, and any program graduate who is determined to lack such competence will be retrained at no cost to the employer or graduate for tuition or instructional fees.
