CERTIFIED NURSING ASSISTANT (CNA)

The Certified Nursing Assistant program prepares students with rigorous classroom training and practice as well as the clinical experiences to perform a full range of patient care duties or services under nursing or medical direction. This includes taking vital signs, obtaining lab specimens, assisting with activities of daily living, observing and charting patient information, and reporting appropriate information to supervisors. It may also include providing various outreach services to clients within the community. Students who successfully complete the Certified Nursing Assistant, Nurse Aide or other related programs may be eligible to sit for the National Nurse Aide Assessment program (NNAAP).
